

NaMBT

Product Description Supply Form

50 % aqueous solution of sodium-2-mercaptobenzothiazole (NaMBT)
yellow to brown liquid

Product Characteristics

Property	Nominal Value	Unit	Test Method
Content of NaMBT	50.25 ± 1.25	%	306
Free alkaline as NaOH	≤ 0.6	%	306
Color number (Gardner)	≤ 18	---	DIN ISO 4630
Dilution in water 1:10	no turbidity	---	14 A

NaMBT

Other Product Features

Property	Typical Value
Density (at 20 °C)	1.26 g/cm ³
Content of chloride	≤ 0.02 %
Content of sulfate	≤ 0.3 %
Packaging	tank truck, container, rolling channel drums
Storage Life/Conditions	2 years from date of production, store properly in closed original packaging; parts of the product can crystallise at temperatures below 10°C, which are dissolved again on heating.
Product Safety	Relevant safety data and references, any necessary warning labels as well as information about the REACH registration are to be found in the EU safety data sheet.

These raw material properties are typical and, unless specifically indicated otherwise, are not to be considered as delivery specification.

This information and our technical advice – whether verbal, in writing or by way of trials – are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to verify the information currently provided – especially that contained in our safety data and technical information sheets – and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility. Our products are sold in accordance with the current version of our General Conditions of Sale and Delivery.
